

SUNCOAST CHESS CLUB NEWSLETTER

VOL 3 NO 1

JAN, 2000

The newsletter had caught up by the end of last year but I guess only the editor knew about that, as we soon slipped behind again. C'est la vie!

The 2000 Calendar which will guide play at the Noosa end of the club appears below, with hopefully fewer errors than last year's many efforts. A new feature is a commencing time for tournaments.

Anyone prepared to do a guest article? The editor could use the material and of course we always need games from our own players. The editor's task has been eased somewhat with his loving wife supplying him with Fritz for Christmas (don't know why she thought it would mean less time on the PC!!). Anyway it is bound to improve the assessment of games, so Otto won't pick up so many flaws in the editor's annotations!! But then perhaps Fritz 6 vs. Otto's Fritz 5 might pick up a few the other way too!!

Games Section For the second month running though, no games from club players. Yes the editor has plenty of his own but has resisted. Please help.

With the net supplying plenty of games, the editor has been lazy and just grabbed a few. These which have been analysed by Fritz on its verbose setting gives game analysis in long hand notes, as well as conventional *informer* notation.
